-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 19 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 19 is rendered vague and indefinite by the phrase "comprising frozen tissue embedding compound" (line 3). Based upon the overall teachings of the instant specification, this phrase is deemed incomplete because it does not reasonably define this essential element of the instantly disclosed invention - i.e., -- comprising a frozen tissue embedding compound having an array of holes disposed therein-- (see, e.g., MPEP 2172.01). It is strongly suggested that this phrase be expanded upon as indicated above so as to adequately define this essential limitation of the disclosed/claimed invention (as well as to help distinguish the claimed invention over the prior art - see, e.g., art rejection below).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1654

Claim 19 is rejected under 35 U.S.C. 102(b) as being anticipated by Sharon (US 6,335,163).

Applicant claims a composition comprising at least one non-fixed biological sample embedded in a tissue microarray block, wherein the tissue microarray block comprises frozen tissue embedding compound.

Sharon anticipates the claimed invention because Sharon teaches (see, e.g. column 21 lines 64-67) a non-fixed biological sample (i.e. tumor tissue) embedded into a frozen tissue embedding compound (i.e. polyvinyl alcohol and polyethylene glycol). Therefore, the reference anticipates the instant claim.

Claims 20-23 are allowed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Randall Winston whose telephone number is 571-272-0972. The examiner can normally be reached on 8AM-5PM.
